SUMMARY

Full-stack developer specializing in Node.js backend development and scalable web applications. Experienced in building RESTful APIs, server-side architecture, and end-to-end solutions with modern JavaScript frameworks.

EXPERIENCE

Full-Stack Developer

2023 - 2025

Spark Zone Technologies

Onsite

- Designed and developed scalable full-stack web applications using Node.js, Express.js, React.js, Next.js, TypeScript, PostgreSQL, and MySQL.
- Built secure RESTful APIs, authentication systems, and backend services following clean architecture and industry best practices.
- Optimized database queries, integrated third-party APIs, and improved application performance and scalability.
- Collaborated with cross-functional teams using Git-based workflows, code reviews, testing, and CI/CD deployment practices.

Full-Stack Developer (Freelance)

2022 - Present

Self-Employed

Remote

- Delivered 15+ full-stack applications, SaaS platforms, admin dashboards, and business solutions using Node.js, Next.js, React.js, TypeScript, Laravel, MongoDB, PostgreSQL, and MySQL.
- Developed scalable backend architectures, REST & GraphQL APIs, authentication systems, payment integrations, and cloud-based deployments.
- Built AI-powered applications by integrating OpenAI, LangChain, Gemini, and real-time communication technologies including WebRTC.
- Managed complete software development lifecycles, from client requirements and system design to deployment and ongoing maintenance.

Full-Stack Developer

2021 - Present

Independent Projects

Remote

- Built production-ready full-stack applications focused on modern web technologies, scalable backend systems, and AI-driven solutions.
- Developed projects including an AI Interview Platform, AI Thumbnail Builder, Sports Real-Time Management System, and GraphQL E-Commerce Platform.
- Designed secure authentication systems, real-time features, database architectures, and responsive user interfaces using modern JavaScript frameworks.
- Continuously explored emerging technologies including AI Agents, LLM integrations, RAG, WebRTC, Docker, and cloud deployment to build modern, scalable software.

PROJECTS

AI Interview Platform [\[GitHub\]](#)

Tech Stack: React, TypeScript, Express.js, PostgreSQL, Sequelize, OpenAI Realtime API, Deepgram, Google Gemini

- AI-powered mock interview app with live voice conversations, real-time transcription, and GitHub-aware personalized questions.
- Auto-scores interviews and generates feedback using the Gemini API.

🏆 Sports Real-Time Management System [\[GitHub\]](#)

Tech Stack: React, Vite, Tailwind CSS, Express, WebSockets, PostgreSQL, Drizzle ORM, Clerk

- Real-time sports event discovery platform to find, create, and join local sports events on an interactive map, with messaging, reviews, and role-based access.

AI Thumbnail Builder [\[GitHub\]](#)

Tech Stack: Next.js, TypeScript, CSS

- AI-powered tool for generating custom thumbnails, built with Next.js and TypeScript.

E.shop - GraphQL E-commerce API [\[GitHub\]](#)

Tech Stack: TypeScript, Express.js, Apollo Server, Type-GraphQL, Sequelize, PostgreSQL, Redis

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Laravel, PHP, JavaScript, GraphQL, REST API

Mobile: Flutter, Dart, Android, iOS

Database: MySQL, PostgreSQL, SQLite, MongoDB, Firebase

DevOps & Tools: Git, GitHub, Docker, Firebase, AdMob, Puppeteer, REST API

EDUCATION

Bachelor's Degree in Computer Science
